The Suzuki Method

...is learning by ear until mastery of the instrument is achieved, then learning to note read. This method is excellent for students wanting to worship on their instrument, and to develop the ability to play what they hear (sounds of heaven).

Beginner Suzuki for Elementary Students

Natural learning incorporates all 5 senses. Three students will share an hour-long interactive *Masterclass*: They will receive individual instruction and observe each other's lessons.

Worship & Prayer for Beginning Students

Each student will be placed in a group which will reinforce technique/posture on their instrument, as well as how to improvise rhythmically and interact with a Psalm from the Bible.

Private Lesson Intensive

Students will have daily private lessons & theory class. He/she will be expected to practice 3-4 hours daily and play at a final performance with accompanist.

Worship & Prayer for Intermediate Students

Students will be placed on worship teams. They will learn to improvise and interact with a Psalm from the Bible.

Note to Parents

This camp is excellent for :

- Beginning students or those wanting to learn a secondary instrument quickly. Because students are with a teacher in a daily Masterclass, a joint individual lesson with other students, the beginner never develops bad habits in the early stages, causing them to learn 3x as fast.
- Those who want to learn keyboard or guitar for personal worship, and improve their voice.
- Students who want the experience of improvising on a worship team.
- Musicians wanting to improve their tone, and technique (5 hours daily of playing for five days)

Issues of the Heart

Technique is taught, heart is caught. We want to develop community, especially for the older students, so we can address issues of the heart. Therefore, *meals together are important*, as well as concerts, fun activities, & electives. The faculty were chosen not only for their ability to teach but because of excellence in character. Master teachers will be coming from Ohio, UNC Charlotte, Kansas City, Davison & New Orleans.

Parents Role:

The "Suzuki Triangle" includes teacher, parent, and student. Therefore the parent is expected to accompany the elementary student and young teen to their lessons daily as well as theory, in order to maximize the student's instruction.

This is not a drop off camp for elementary students!

Parent Involvement is proportional to levels of success!

Please ask about leadership opportunities for the mature teen. Email Melody at suzukiworshipcamp@gmail.com
